

MICRO GLASS

DESCRIPTION

Micro Glass is an ultra-thin micro fibre cloth. Ideal for use on mirrors, glass, windows, plastic and other hard surfaces.

PROPERTIES

- Cleans and polish surfaces from dust, dirt, oil etc., very effectively without leaving any stripes or traces.
- Provides a very good result without chemicals.
- The fibers are extremely thin and give the fabric a capillary effect with extreme absorbing properties.
- Is very durable and maintains the quality, even after being washed several times.
- Lower the consumption of paper towel and rags.
- The cloth's micro-thin threads give maximum cleaning and absorption.
- Unbelievably effective against dust.
- Reduces the need for paper towels and rags.
- Reduces the need for cleaning agent.
- Can be washed and is extremely durable.

FIELD OF APPLICATION

- Ideal for use on mirrors, glass, windows, plastic and other hard surfaces.

USER INSTRUCTIONS

- Can be used dry or moist.

See further washing instructions on next page.
